GENERAL INFORMATION

In Victoria we are privileged to have a diverse range of
wildlife which is protected under the *Wildlife Act 1975*
and the *Wildlife Regulations 2002*, and any subsequent
amendments. Only those taxa listed in Schedules 3, 4,
5 and 8 may be kept privately in Victoria.

Any wildlife not listed in these Schedules may not be
held by private individuals in Victoria.

**However, there are some wildlife species which can
be kept for private purposes, if you hold an
appropriate Private Wildlife Licence.**

There are different categories of licence, each with
conditions, limitations and restrictions. In some other
cases wildlife taxa can be kept without a licence, as long
as they come from a legal source (such as the holder of
an appropriate Wildlife Licence).

**Different laws apply in each Australian State and
Territory** with respect to wildlife. So, the wildlife laws of
other States and Territories do not necessarily apply in
Victoria. If in doubt, check with the Wildlife & Game
Licensing Service at DSE.

**If you operate from a shop or business premises,
you will require a Commercial Wildlife Licence** for
any taxa other than those listed in Schedule 5 Part A.

An application form for a Commercial Wildlife Licence
can be obtained upon request, from the Customer
Service Centre on 136-186.

DO I NEED A LICENCE ?

A Licence is **not** required to keep wildlife listed in Schedule 5 of the Wildlife Regulations 2002.

- A licence is not required to keep, possess, breed, buy, sell or dispose of wildlife taxa listed in Schedule 5 (Part A or Part B) of the Wildlife Regulations 2002 for private purposes, as long as the wildlife have come from a legal source.

A Licence is **not** required to keep Processed Wildlife.

- A licence is not required to possess processed wildlife products (other than by taxidermy) from the following wildlife: Freshwater or Saltwater Crocodile, Emu, Common Brushtail Possum, Eastern or Western Grey Kangaroo, Whiptail Wallaby, Euro, Red-necked Wallaby, Red Kangaroo or Tasmanian Pademelon.

COMMON EXPIRY DATE

Basic & Advanced Licences

All Basic & Advanced Licences have a common expiry date of 30 September each year. This will make it easier for you to remember when your licence is due to expire.

Your first licence will only be issued for the period remaining to 30 September from the date of issue and a *pro-rata* fee may apply, depending on when you lodge your application (refer to page 10 for details).

However, if you apply for a licence in July, August or September, your licence will be issued to 30 September in the following year.

Specimen Licences

Specimen Licences also have a common expiry date but, because they are issued for up to 3 years, they will all expire on 30 September 2010. (Monthly *pro-rata* fees apply; refer Page 10).

YOUR OBLIGATIONS UNDER LICENCE

Record Keeping

If your application is successful, you will receive a *Protected Wildlife Record Book* with your licence. The Regulations require licence holders to maintain accurate and up-to-date records to assist in monitoring wildlife possession and trade. This helps guard against illegal exploitation of wildlife.

- Record transactions immediately they are completed; instructions are included. It is your responsibility to obtain and record all relevant information from any persons with whom you deal in wildlife. Ensure that the licence, of anyone you buy or sell wildlife with is valid.
- Keep your record book in a safe place; it is a permanent record of all transactions involving your wildlife. Do not remove any pages; an administrative fee may be charged for replacement of lost or damaged record books.
- Failure to keep accurate and up-to-date records is an offence under the *Wildlife Act 1975*.

Returns for Wildlife

If your application is successful, you will also receive a *Wildlife Code List* with your licence. The Regulations require licence holders to submit an annual *Return for Wildlife*. The information contained in these returns gives a State-wide overview of wildlife possession and trade and can be used to help with wildlife management.

- A completed *Return for Wildlife* must be submitted by no later than 14 April each year, detailing the wildlife in your possession and summarising any wildlife transactions conducted during the twelve-month period ending 31 March.
- Even if you do not hold any wildlife, you must submit a Return by 14 April, for as long as you hold a current wildlife licence. In such cases, write your name, address and licence number in the spaces provided on the form, and write 'NIL RETURN' across the form. Remember to sign and date the form, and make sure that you keep a copy of your completed Return for your records.
- Failure to keep accurate and up-to-date records is an offence under the *Wildlife Act 1975*.

Conditional Renewal Process

If you do not comply with all of the conditions of your licence, you may be prosecuted and the Secretary may refuse to renew your licence.

WILDLIFE OFFICERS

Protecting our wildlife resources

Wildlife Officers (“Authorised officer”) may inspect wildlife held by any person. They may also inspect wildlife record books and any other documentation associated with the keeping and trade of wildlife. Mostly, inspections are conducted by uniformed officers (but not always) and they will show you official identification. If identification is not offered, you should ask to see it.

If you are requested to participate in an inspection it does not mean that you have done anything wrong. Inspections are often conducted to monitor general trends in wildlife licence holders. As a wildlife licence holder you have certain rights and obligations.

Your Obligations

If requested, you must:

- give the officer your name and address when asked;
- allow an officer to inspect wildlife held by you;
- produce your licence or record book for inspection;
- allow the officer to search your vehicle, boat or property (or house if the officer has a warrant);
- surrender anything the Officer tells you is seized;
- comply with any retention notice issued for wildlife in your possession;
- not obstruct, threaten or abuse an Officer in the course of his or her duty.

Your Rights

- You may ask to see a Wildlife Officer’s identification;
- You do not have to answer any questions or do anything if you think that it might incriminate you. If you are to be interviewed about an offence you will be informed of your rights. (You must, however, state your full name and correct address if asked. It is in your best interests to cooperate with officers);
- You may request a receipt for anything seized from you;
- If you keep wildlife inside your house, it is a condition of your licence that you allow inspection of that wildlife by an Authorised Officer at any reasonable time for the purpose of monitoring compliance with the Act, the regulations or the conditions of the licence.

LICENCE CATEGORIES

Private Wildlife (Basic) Licence

Wildlife listed in Schedules 3 and 8 of the Wildlife Regulations 2002.

- This licence authorises the holder to possess, keep, breed, buy, sell and dispose of wildlife listed in Schedules 3 and 8 (refer to pages 6-9) of the Wildlife Regulations 2002.
- The licence holder may possess or keep any number of those taxa listed in Schedule 3 of the Wildlife Regulations 2002. However, the licence holder may only possess or keep, at any given time, no more than 10 self-sufficient individuals of those taxa of wildlife listed in Schedule 8 of the Wildlife Regulations 2002. (A self-sufficient Emu is deemed to be a chick of four weeks or older).
- The holder of this licence may only sell or dispose of wildlife listed in Schedule 8 to the holder of a Private Wildlife (Basic) or (Advanced) Licence or, with the specific and prior written approval of the Secretary to the Department of Sustainability and Environment “the Secretary” (or their delegate), to another person.
- The licence holder must not sell or dispose of any wildlife bought or acquired (other than the wildlife listed in Schedule 5 for which no licence is required) unless he or she has held that wildlife for at least six months, without the prior written approval of the Secretary (or their delegate).
- **If you hold a Basic Licence, you must not sell or dispose of any wildlife which you bought or acquired that has not been in your possession for at least six months, without obtaining the prior written approval of the Secretary. (This does not apply to wildlife you have bred yourself, provided it is self-sufficient).**

Private Wildlife (Advanced) Licence

Wildlife listed in Schedules 3, 4 and 8 of the Wildlife Regulations 2002.

- This licence authorises the holder to possess, keep, breed, buy, sell and dispose of wildlife listed in Schedules 3, 4 and 8 (refer to pages 6-9) of the Wildlife Regulations 2002.
- The licence holder may possess or keep any number of those taxa listed in Schedules 3 and 4 of the Wildlife Regulations 2002. However, the licence holder may only possess or keep, at any given time, no more than 10 self-sufficient individuals of those taxa of wildlife listed in Schedule 8 of the Wildlife Regulations 2002. (A self-sufficient Emu is deemed to be a chick of four weeks or older).
- The holder of this licence may sell or dispose of wildlife listed in Schedule 8 to the holder of a Private Wildlife (Basic) or (Advanced) Licence or, with the specific and prior written approval of the Secretary (or their delegate), to another person.
- The licence holder must not sell or dispose of any wildlife bought or acquired (other than the wildlife listed in Schedule 5 for which no licence is required) unless he or she has held that wildlife for at least six months, without the prior written approval of the Secretary (or their delegate).
- If the applicant or licence holder intends to keep venomous snakes, (and is less than 18 years of age), he/she must include written demonstration of competency in the handling of venomous snakes. Contact the Customer Service Centre on 136-186, for further information.
- **If you hold an Advanced Licence, you must not sell or dispose of any wildlife which you bought or acquired that has not been in your possession for at least six months, without obtaining the prior written approval of the Secretary. (This does not apply to wildlife you have bred yourself, provided it is self-sufficient).**

Private Wildlife (Specimen Category) Licence

- This licence authorises the holder to possess, keep, buy, sell and dispose of prepared or mounted specimens of dead wildlife.

The licence holder must notify the Wildlife & Game Licensing Service, in writing, within 14 days of the acquisition or disposal of any wildlife held under this licence. The advice must provide details of:

- the taxa involved;
- where a specimen has been marked under instruction from this Department, the identification number of the mark belonging to each wildlife specimen involved;
- the name, address and licence number of the other person;
- if not sold or disposed of to a licence holder, the means of disposal; and, where applicable, the Import or Export Permit number.

ADDITIONAL INFORMATION

Please read these points carefully before completing the application form. If you would like more information, contact the Customer Service Centre on 136-186.

- **Going Away ?**
If you are going away and want to transfer your wildlife to another appropriately licensed person, this must be recorded as a transaction in your respective *Protected Wildlife Record Books*. **If the other person holds either a Basic or Advanced Licence and intends to return your wildlife to you within six months, you will need to obtain the prior written approval of the Secretary.**
- **Taking Wildlife From The Wild.**
Wildlife must not be taken from the wild or released to the wild without the prior written approval of the Secretary. This includes removing dead wildlife from the wild.
- **Not Transferable**
A wildlife licence will only be issued to one person, that is, in one name. Wildlife licences cannot be transferred from one person to another.
- **A Valid Licence**
Wildlife must not be acquired until the appropriate licence has been obtained. Even if your cheque or money order has been banked, you are not authorised to hold wildlife until you have received and signed your licence.

- **The Right Licence**

Please ensure that you have the right licence for the wildlife you wish to keep. Only one licence is required to be held at any given time for wildlife listed in the Schedules to the Wildlife Regulations 2002. Dead specimens of wildlife may be held under a Private Wildlife (Specimen Category) Licence.

- **Persons Under 18 Years of Age**

Private Wildlife Licences will not be issued to persons under 10 years of age. Applicants aged between 10 and 18 years of age must provide written and signed consent of their parent or legal guardian with their application. Applicants for a Private Wildlife (Advanced) Licence who are under 18 years of age and who wish to keep venomous snakes must include written demonstration of their competency in handling of the venomous snakes they wish to keep, otherwise their licence will not allow them to keep venomous snakes.

- **Licences Are Renewable**

All licences are renewable on an annual basis upon payment of the prescribed licence fee, but it is the responsibility of the licence holder to ensure that the licence remains current. A renewal notice will be produced approximately six weeks prior to the common expiry date of 30 September each year.

- **Renewal is conditional**

However, a renewal notice will not be produced if the licence holder has not submitted a *Return for Wildlife*, for the period ending 31 March each year (refer to page 4 for further information).

- **Correct Details**

If any details on a licence are incorrect, or if they change (eg. Change of address), you must return your licence to the Wildlife & Game Licensing Service for amendment and include a note clearly stating the changes.

- **Other Legal Obligations**

In addition to compliance with the conditions of a wildlife licence, the *Wildlife Act 1975* and the Wildlife Regulations 2002, a licence holder must also comply with any relevant State or Federal legislation or by-laws or other requirements of the relevant local council.

- **Specified Premises**

Any wildlife being held under a private wildlife licence must remain at the premises specified in the licence, unless going to or returning from a veterinarian, or subject to a legal trade.

Only one address can be specified on a licence.

- **Unlisted Species**

If the taxa you wish to keep is not listed in the Schedules on pages 6-9, it is likely that it cannot be kept legally in this State. In doubt, contact the Wildlife & Game Licensing Service.

- **Caged Birds**

The keeping and housing of birds (other than waterfowl) is subject to the *Code of Practice for the Housing of Caged Birds*, which is administered by the Bureau of Animal Welfare. Copies of various Codes of Practice may be obtained by contacting the Bureau on (03) 9217 4228 or on-line at: www.dpi.vic.gov.au.

- **Hand-Rearing Birds**

The hand-rearing of birds held under a private wildlife licence may generally only be undertaken by the holder of that licence. Under the Wildlife Regulations 2002, it is illegal to buy, sell, dispose of, consign, convey or transport any egg or any bird that is too young to fly (or, if a flightless bird, is less than four weeks old), for any purpose other than treatment by a registered veterinary surgeon, (whether or not a licence is required), **unless the prior written permission of the Secretary has been received.** Contact the Wildlife & Game Licensing Service for more information.

- **Trading**

When trading wildlife for which a licence is required, both parties must have an appropriate and current licence. It is the responsibility of the licence holder to ensure that all requirements of the *Wildlife Act 1975* and the Wildlife Regulations 2002 are observed. An Import or Export Permit must be obtained from the Wildlife & Game Licensing Service before importing wildlife into Victoria or exporting wildlife out of Victoria (other than King Quail, Budgerigars, Cockatiels and Zebra Finches) irrespective of any other licensing requirements.

- **Sick, Injured or Abandoned Native Animals**

If you find sick, injured or abandoned native wildlife, hand it to an authorised Wildlife Shelter operator who will care for and rehabilitate it for release back to the wild. It may not be retained under a licence. Details of local Wildlife Shelters are available from the Customer Service Centre on 136-186.

- **One Licence per Premises**

Only one private wildlife licence may operate at a given location at any given time.

- **Privacy**

In certain circumstances, you may require a third-party to make licence enquiries or deal with DSE on your behalf.

The Wildlife & Game Licensing Service of the Department of Sustainability and Environment (DSE) is committed to protecting your Personal Information according to the principles set out in the Victorian *Information Privacy Act 2000*.

This Privacy Statement applies to the collection and use of personal information, voluntarily provided by you, in relation to administration of licences and permits administered under the *Wildlife Act 1975*. A licence or permit may not be issued if the information required on this application form is not provided. You may also apply for access to your personal information at anytime to confirm it is accurate and up to date, upon payment of a prescribed fee (if any).

DSE will not discuss your licence or disclose your Personal information to any other person, except by prior arrangement.

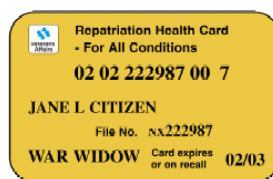

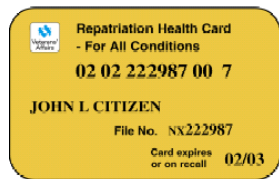

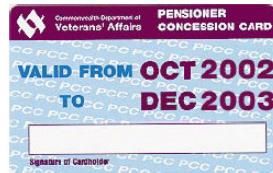

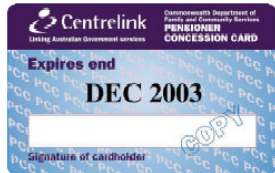

A **Proxy Nomination Form** is available for this purpose.

CONCESSIONS

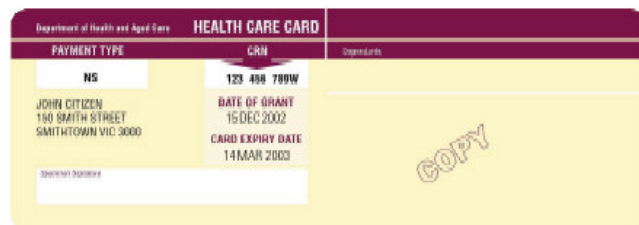

Are you eligible for a Concession ?

Anyone holding a current Commonwealth Health Card (listed below) is eligible for a concession on the cost of a Private Wildlife Licence.

Only the Concession Cards shown below are eligible:

Veterans Affairs 'Gold Cards' with the word 'Dependant' in the bottom left-hand corner are not eligible for State Concessions.

If you are eligible for a concession:

If you are eligible for a concession, you must provide a photocopy of your current Card together with your payment, when you first apply for a licence and each year when you renew your licence.

You only need to pay the Concession fee specified, for the category of licence for which you are applying, in the Schedule of Licence Fees on page 10.

Please Note:

You must prove your eligibility each and every time you wish to claim a concession, regardless of your previous eligibility. If you don't provide a photocopy of your current Concession Card, your application cannot be processed.

A "Student Transport Concession" card is not accepted.

Licence Fees - Wildlife Regulations 2002

Please Note that Wildlife Licence fees are exempt from the Goods & Services Tax (GST). Where appropriate, monthly pro-rata figures are rounded to the nearest 10 cents.

How much will my licence cost ?

- 1) Refer to the relevant Table shown at right (ie. Basic or Advanced) and select **today's** Month. The correct fee is shown alongside in **Bold**. If you are eligible for a concession, the correct fee is shown *in Italics*.
- 2) Tick the required box and write the appropriate fee in the space provided on the Application Form.

Who should I make my cheque payable to ?

Please make your Cheque or Money Order payable to the 'Department of Sustainability and Environment'.

When can I expect to receive my licence ?

If your application is approved, you should expect to receive your licence about three weeks after your application is received by DSE.

Note: You cannot acquire any wildlife until you receive and sign your Private Wildlife Licence.

A "Student Transport Concession" card is not accepted.

Information Privacy

In certain circumstances, you may require a third-party to make licence enquiries or deal with DSE on your behalf. The Wildlife & Game Licensing Service of the Department of Sustainability and Environment (DSE) is committed to protecting your Personal Information according to the principles set out in the Victorian Information Privacy Act 2000. This Privacy Statement applies to the collection and use of personal information, voluntarily provided by you, in relation to administration of licences and permits administered under the Wildlife Act 1975. A licence or permit may not be issued if the information required on this application form is not provided. You may also apply for access to your personal information at anytime to confirm it is accurate and up to date, upon payment of a prescribed fee. DSE will not discuss your licence or disclose your Personal information to any other person, except by prior arrangement. A Proxy Nomination Form is available for this purpose.
