Dear Susannah Tymms,

I am concerned about the growing pressure to allow GM modification of our food, I don't just speak for myself, I speak for many, and our children who don't have a choice, to voice our opinions or stand up for our rights as consumers, to know that what we consume is good for us. A great majority do not want this and our voices should be heard.

I would like to call for an extension on the current ban against GM modification.

Yours Sincerely,

Karen Tants
