Dear Paul

I wish to register my objection to the proposal to lift the ban on GM crops in Victoria.

This makes no economic sense when GM-free foods sell at a premium currently & provide Australia with a competitive advantage. Removing the ban will sully Australia's "clean agriculture" image & impact on other Australian grown produce.

I am also concerned that GM crops would commit us to more intensive chemical use in agriculture when the long term implications are not known.

Please extend the ban on GM crops & all GM crops in Australia

of Young. ANNE YOUNG.
