Dear Sir / Madam

I am writing to you to express my concern about the upcoming review of the ban on GM canola.

My family, friends and I strongly oppose to genetically modified food and we would like to consume food that is as Nature intended, not something that was created in a lab and has not been sufficiently tested. Mandatory labelling of non-Australian, GM food should be supported and not compromised on, to give consumers all the information they need when purchasing food items.

I strongly urge you to extend the GM crop ban until 2013, and ask you to demand that all foods made using GM be labelled clearly.

Yours sincerely

Michaela Mason
