Dear Sir

This is my submission to the state review of the moratorium on genetically engineered food crops.

I DONT WANT TO BE EATING GENETICALLY ENGINEERED FOODS, and I especially dont want GE canola in my food OR MY CHILDREN'S FOOD.

Im sure other people feel the same, I have spoken to my friends and family and they certainly don't want GE food or GE canola from infiltrating their food.

I strongly urge you to prevent this from happening.

I believe that the current moratorium on GE food crops should be extended for the above reasons, including the damage that it would do to our environment.

I STRONGLY urge you to recommend the extension of the state GE food crop moratorium by 5 years OR MORE and the LABELLING of all GE food, including oils and products from animals fed GE feed.

Thank you,
Ms Christine Charalambous
