Dear Sir

This is my submission to the state review of the moratorium on genetically engineered food crops.

1. As a person in the health industry, I object ALL GM foods.
2. Not enough time has elapsed to understand the long term effects of people, especially our children.
3. What is happening in Canada should be enough to put the brakes upon this experiment.
4. please extend the moratorium on this.
5. Responsible people want more studies which can only happen over a period of time.
5. I do NOT want an American company dictating to us what our farmers should or should not use.
6. This is profit driving risky stuff. SO PLEASE STOP IT & RESEACH IT FURTHER!!
7. Proper segradation cannot happen with the winds carrying GM seed to neighbours farms.
8. What about the damage to our exports long term when it is found that we could have GM damaged food stuffs. Our acconomy will suffer for many many years to come.
9. We have a clean green reputation now, PLEASE DO NOT DSTRY THIS JUST BECAUSE USA SAYS SO & WORSHIP OF THE GOLDEN IDOL (\$).

Yours sincerely
Mrs margaret norriss
