To Whom It May Concern,

I would like it noted that I am in favour of trialing round up ready canola.

I have spoken to farmers in Canada who are currently growing round up ready canola and as a result of these conversations believe that there would be many benefits. It would be especially beneficial in my situation which sees me growing approximately 3000 hectares of canola each year. I hope to be given the opportunity to implement the use of round up ready canola in the future.

Chris Dowling
