Subject BEES in USA have lost their way home!!!!

To Whom It May Concern
GM Review Panel,

Just a plea from the wilderness to ask that there be an extension on the BAN of GM crops. For Governments to consider allowing this destructive fiscal driven madness is a form of Institutional Insanity. There is far too many unknowns to the long term effects on other/all life from this crazy one eyed approach and I recommend a decision to err on the side of caution.

Your sincerely
Janet Tough
