SECTION B ORDER FOR ELECTRONIC NLIS (sheep) BREEDER & POST BREEDER EAR TAGS

All sheep and farmed goats must be identified with an NLIS (sheep) tag before being dispatched to a saleyard, abattoir, or another property with a different PIC. Producers can either use a visually readable NLIS (sheep) tag, or an electronic NLIS (sheep) tag. The use of electronic NLIS (sheep) tags as part of the NLIS (sheep & goats) is voluntary. Producers who use electronic NLIS (Sheep) tags are not required to identify their sheep with a visually readable NLIS (Sheep) tag. Electronic NLIS (Sheep) Breeder Tags are yellow and are used to permanently identify **sheep** before they leave their property of birth. Electronic NLIS (Sheep) Post-breeder Tags are pink and are used to permanently identify introduced sheep, not already identified with a Breeder or Post-breeder Tag. If sheep you buy are already identified with an electronic NLIS (sheep) tag, do not attach a second electronic NLIS (sheep) tag. **Electronic NLIS (sheep) Breeder and Post-breeder tags are GST Free. Electronic NLIS (sheep) tags are available from either Allflex Australia or Leader Products at the prices listed below.**

Please tick whether these electronic NLIS tags are for Sheep or Goats
