INDUSTRY UPDATE

IMPORTANT

REVOCATION OF ASH WHITEFLY IMPORT REQUIREMENT INTO TASMANIA

On the 29 April 2008, Tasmania DPIW advised all states that the Import requirement 24 (IR24) (relating to Ash Whitefly) of the Tasmanian Plant Quarantine Manual is to be revoked. And in the interests of efficient trade IR24 will not be enforced from this time.

This follows a number of confirmed Ash Whitefly (*Siphoninus phillyreae* Haliday) in a number of areas in the state of Tasmania.

Subsequently all Ash Whitefly hosts can move freely into Tasmania without requiring treatment for Ash Whitefly.

Note: Host material may be subject to other import conditions. Please contact the Plant Standards Branch – phone (03) 8371 3500 or fax (03) 9687 6746 for further information or to confirm import requirements.
