

Dr. SHAUN CUNNINGHAM

Shaun Cunningham is a Postdoctoral Fellow in the Australian Centre for Biodiversity at the School of Biological Sciences, Monash University. His past research has included fire ecology, nutrient dynamics, ecophysiology and root biology. He is particularly interested in physiological adaptations of trees to environmental stress, and predicting landscape scale responses to environmental stress using remote sensing and ecological modelling. He is currently working on a project assessing the present and past condition, and predicting the future condition of river red gum populations in Northern Victoria.

**pdfMachine - is a pdf writer that produces quality PDF files with ease!
